

14th April 2020

Dear Rob Stewart and Phil Roberts

Please find attached to this letter scans of pages of a paper petition which will be sent in hard copy to you in due course.

This petition has 495 signatures on it, and was collected over a very short period of time by a handful of mainly disabled people.

It certainly was not difficult to get signatures before this lock-down, but we have seen copious evidence of deployment continuing while we are not at liberty to collect more and when online petitions are being closed down. We have therefore decided to send it in to you now, to give you additional awareness of people's concerns.

We call upon you at this difficult time not to use Covid 19, or any manufactured narratives attached to it, as an excuse to ignore the earnest petition of the people of the City and County of Swansea concerning the roll-out of dangerous technology. Your duties as elected representatives cannot be evaded by holding to defunct ICNIRP standards, whatever narratives are being promulgated.

Added to this petition, many concerned people called in a planning application on a mast in Uplands soon before this lock-down, and the growing alarm about this technology is more and more obvious.

In this context continuing deployment during this time is cynical, opportunistic and anti-democratic.

We look forward to acknowledgement of this petition and the number of signatures. We look forward to hearing statements of intent to cease deployment until such time as the technology is independently proven safe.

We will resume collection, documentation and dissemination of statements of non-consent as appropriate.

Sincerely

Safe Tech Swansea  
Community Group

Rob Stewart Council Leader  
Phil Roberts Council CEO  
City and Country of Swansea,  
At Civic Centre, Oystermouth Road, SA1 3SN and at  
The Guildhall, Guildhall Road N. SA1 4PE

14.4.2020

For the attention of:

The above named, The Mayor, Councillors and other honourable members.

References to WALES and WELSH GOVERNMENT signify that signatures will also be collected from other regions to be sent to the Government together on behalf of the wellbeing of future generations in Wales.

**PUBLIC PETITION AGAINST 5G TECHNOLOGY IN (CITY AND COUNTY OF SWANSEA AND WALES)**

We would like to bring to your attention to the large number of SWANSEA'S community who feel very strongly about the proposed introduction, installation and operation of 5G technology within the City and surrounding area.

Their primary concern is that this new and unprecedented introduction installation and operation of 5G technology has not had any credible independent safety tests which are broad spectrum health risk assessments before the nation is to be exposed to it.

It is extremely likely to cause significant health issues for the people who are exposed to it, with unknown long term health effects, especially for the young children of this current time.

Our own UK Government is the financial driving force behind 5G but they have never said nor categorically stated that it is a safe, time proven technology without health risks. There are many eminent scientists and health officials, even within the World Health Organisation, expressing their most serious concerns about exposure to 5G. As a result a growing amount of countries, towns, cities and American states, who have taken a good look at the facts and potential health risks, have decided to say no to 5G until at least there are meaningful tests and health assurances.

To demonstrate that there are real and genuine health concerns in CITY AND COUNTY OF SWANSEA (AND WALES) community about the onset and roll out of 5G, the undersigned people whom you serve, and are answerable to, have asked to have their collective views respected, represented, and acknowledged within this petition.

There is an expectation that you will respond to the community concerns and both liaise, and consult with them, and say no to 5G under the Precautionary Principle in SWANSEA (AND WALES) until it is categorically proved safe, in proper, independent randomised controlled trials.

**THE FOLLOWING INDIVIDUALS ENDORSE THIS PETITION AND REQUEST THAT CITY AND COUNTY OF SWANSEA (AND WELSH GOVERNMENT) RESPOND TO THE COMMUNITY WITH A FAVOURABLE STANCE AND PRECAUTIONARY POLICY TO SAY NO TO 5G IN THIS TOWN (AND ACROSS WALES).**

**(THE UNDERSIGNED REFERS TO AND INCLUDES SEPARATE SIGNATURE PAGES)**
